- Consolidated and same store sales surged $11.7 \%$ and $4.6 \%$ YoY respectively. We successfully carried out sales promotion measures while thinking of consumption tax hike as a once-in-a-lifetime opportunity to expand our business and market share. Expansion in tourists' sales pushed up the overall sales strongly.
- GPM went up 0.3 pts YoY to $26.6 \%$. Price-competitive daily necessities such as food and sundry goods helped to expand our customer base. We cleared slow-moving inventories aggressively towards the end of the year as more spot-purchased items and tourists' sales contributed to increase gross profit.
- SGA to sales ratio fell 0.2 pts to $20.9 \%$. Personnel cost, supplies expenses and depreciation expenses increased as a record-high of 33 new stores were opened. Personnel cost went up mainly due to an increase in man-hour triggered by the expansion in our shares in daily necessities and tourists' sales. The cost increase was more than offset by the growth in sales and GPM.
- OP grew an all-time high of $14.0 \%$ YoY. Sales and OP went up for the 26 th consecutive year.

## Same-store sales

- DQ SSS, traffic and basket spend rose $4.6 \%, 1.9 \%$ and $2.7 \%$. The first, second, third and fourth quarter SSS grew $2.8 \%, 6.3 \%, 0.6 \%$ and $8.9 \%$ respectively. SSS guidance : up $1.0 \%$ in 1 H , flat in 2 H and up $0.5 \%$ for the full year.
- Post-tax-hike strategies generated better-than-expected results by boosting consumption, not relying only on tourists' sales.
