PPIH has been selected for the first time as a constituent of the “FTSE4Good Index Series” and “FTSE Blossom Japan Index” ESG investment indices

Pan Pacific International Holdings Corporation (Headquarters: Tokyo, President and CEO: Naoki Yoshida) **has been selected for the first time as a constituent of the “FTSE4Good Index Series” and “FTSE Blossom Japan Index”**, which are leading ESG (environmental, social, and governance) investment indices.

The “FTSE4Good Index Series” and “FTSE Blossom Japan Index” are indices designed by FTSE Russell, a global index provider, to measure the performance of companies with strong ESG practices. These indices are widely used in the creation and evaluation of sustainable investment funds and other financial products.

The “FTSE Blossom Japan Index” is also included in the ESG domestic stock index* of the Government Pension Investment Fund (GPIF). As a result of this selection, our company has been chosen as a constituent of all Japanese equity ESG indices adopted by the GPIF.

Based on our corporate principle of “The Customer Matters Most”, the PPIH Group is committed to resolving important environmental and social issues (materiality) through its core business of general retailing, with a primary focus on supporting the lifestyles of local customers and providing them with the enjoyment of shopping. Our Group remains committed to advancing initiatives that reflect our unique identity, with the aim of achieving both the realization of a sustainable society and the medium- to long-term enhancement of corporate value.

Please visit our corporate website for more information about our group’s sustainability initiatives.
