Note: Revisions to the consolidated earnings forecasts most recently announced — Yes

Please refer to the press release titled “Notice Regarding Revisions to Full-Year Consolidated Earnings Forecasts,” which was disclosed today February 12, 2026, for details regarding the revisions to the consolidated full-year earnings forecasts.

Notes

- (1) Significant changes in the scope of consolidation during the period: None
Newly included: None
Excluded: None
- (2) Adoption of accounting treatment specific to the preparation of semi-annual consolidated financial statements: None
- (3) Changes in accounting policies, changes in accounting estimates, and restatement
- (i) Changes in accounting policies due to revisions to accounting standards and other regulations: None
 - (ii) Changes in accounting policies due to other reasons: None
 - (iii) Changes in accounting estimates: None
 - (iv) Restatement: None
- (4) Number of issued shares (common shares)
- (i) Total number of issued shares at the end of the period (including treasury shares)
- | | |
|-------------------------|----------------------|
| As of December 31, 2025 | 3,177,296,700 shares |
| As of June 30, 2025 | 3,176,766,700 shares |
- (ii) Number of treasury shares at the end of the period
- | | |
|-------------------------|--------------------|
| As of December 31, 2025 | 188,783,325 shares |
| As of June 30, 2025 | 190,367,105 shares |
- (iii) Average number of shares outstanding during the period (cumulative from the beginning of the fiscal year)
- | | |
|------------------------------------|----------------------|
| Six months ended December 31, 2025 | 2,987,185,022 shares |
| Six months ended December 31, 2024 | 2,985,029,375 shares |

Note: The Company conducted a 5-for-1 stock split of its common shares, effective October 1, 2025.

Assuming that this stock split had been effective at the beginning of the previous fiscal year, “total number of issued shares at the end of the period,” “number of treasury shares at the end of the period,” and “average number of shares outstanding during the period” have been calculated accordingly.

- Proper use of earnings forecasts, and other special matters

Cautionary statement regarding forward-looking information

This document contains forward-looking statements, including the Company’s outlook for business results. These statements are based on information currently available to the Company and on certain assumptions that the Company considers reasonable; however, they are not intended to constitute a guarantee of performance. Actual results may differ materially due to various factors. For the assumptions underlying the Company’s forecasts and important notes regarding the use of such projections, please refer to page 4 of the accompanying materials, “1. Qualitative Information — (3) Explanation of consolidated earnings forecasts and other forward-looking statements.”

Method of obtaining supplementary materials and contents of the financial results briefing

The Company plans to hold a financial results briefing for securities analysts and institutional investors on February 12, 2026. The briefing presentation materials will be made available on the Company’s website.

1. Qualitative Information

(1) Consolidated operating results

During the six-month period ended December 31, 2025, Japan's economy continued to face an uncertain outlook amid concerns that factors such as U.S. trade policies and the deterioration in Japan–China relations could affect economic conditions.

In the retail sector, the operating environment remains challenging, as higher personnel expenses reflecting minimum wage increases and labor shortages—along with persistent inflation that continued to raise prices for food and daily necessities—increased overall cost pressures. As a consequence of these cost pressures, consumers have become more price-conscious, which, in turn, intensified competition among retailers, particularly on pricing.

Amid these challenging conditions, the Group formulated a new long-term management plan “Double Impact 2035” in August 2025 to ensure continued growth. Under this plan, the Group has been implementing a wide range of initiatives to achieve its stated objectives.

During the period under review, the Group opened seven stores in Japan, all operated by Don Quijote Co., Ltd. The store openings by region were as follows:

- Kanto region: Don Quijote Oizumi (Tokyo); Kirakira Donki Ebina Vinawalk (Kanagawa); and Re:Price Kumagaya NITTOH MALL (Saitama)
- Tohoku region: Kirakira Donki the Mall at Sendai Nagamachi (Miyagi)
- Chubu region: Don Quijote Takayama (Gifu)
- Kinki region: Don Quijote Apita Matsusaka Mikumo (Mie)
- Chugoku region: Don Quijote Hatchobori Nishi (Hiroshima)

In the overseas business, the Group opened two stores in California, U.S.—Tokyo Central Irvine and a sushi restaurant in El Dorado Hills—along with one store in Thailand, DON DON DONKI Central Westgate.

Meanwhile, the Group closed one store in the domestic business and four stores in the Asia business.

As a result, the Group operated a total of 784 stores worldwide as of December 31, 2025, comprising 661 domestic stores and 123 overseas stores, compared with 779 stores as of June 30, 2025.

Performance by reportable segment is as follows.

Domestic Business

Net sales were ¥1,291.52 billion, up 7.8% year-over-year, and operating income was ¥90.244 billion, up 3.7% year-over-year in the domestic business segment. Tax-free sales increased as the share of the Group's sales in foreign visitors' domestic spending continued to rise. The rise in this share was driven by inbound initiatives such as enhanced amusement experiences, expanded merchandise assortments, and the “Tabi-Mae Promotion,” which raises awareness of Don Quijote before visitors arrive in Japan and provides special offers. In addition, driven by new store openings aimed at expanding market share and reinforced members-only services via the majica app, including “maji-kakaku” (exclusive prices for app members) and the “maji-majica point rebate campaign,” same-store sales grew 4.4%.

In December 2025, the Group opened its first “Re:Price” store, a new experimental format specializing in astonishingly affordable products for beauty, health, and time-saving needs targeted at women in their 30s to 50s. The Group will continue developing new formats that resonate with customers to pursue further growth in domestic net sales.

Operating income increased despite higher selling, general, and administrative (SG&A) expenses. SG&A expenses rose mainly due to new store openings, higher personnel expenses resulting from minimum wage increases, an increase in subsidiaries subject to factor-based tax, and higher tax-free-related costs.

North America Business

Net sales were ¥134.730 billion, up 3.4% year-over-year, and operating income was ¥1.727 billion, down 25.9% year-over-year in the North America business segment. Net sales and SG&A expenses increased due to new store openings and the consolidation of Mikuni Restaurant Group, Inc. as a subsidiary. Meanwhile, the loss of one store caused by wildfire in the previous fiscal year reduced net sales and SG&A expenses. Operating income decreased due to higher costs associated with strategic new store openings and other related investments.

Asia Business

Net sales were ¥46.240 billion, up 6.4% year-over-year, and operating income was ¥2.023 billion, up 387.5% year-over-year in the Asia Business segment. Net sales increased mainly supported by higher same-store sales. Same-store sales grew as the Group leveraged local distribution channels for merchandise procurement, expanded spot-buy items, introduced new products, and applied strategic pricing to popular Japanese products. Operating income rose significantly as the Group continued its comprehensive review of SG&A expenses, including closing unprofitable stores, introducing self-checkout registers, and optimizing staff allocation to reduce personnel expenses.

As a result of the above, the consolidated results for the six-month period under review were as follows:

Net sales	¥1,210.122 billion (up 7.2% year-over-year)
Operating income	¥93.994 billion (up 4.7% year-over-year)
Ordinary profit	¥96.469 billion (up 11.0% year-over-year)
Profit attributable to owners of parent	¥63.734 billion (up 18.1% year-over-year)

(2) Consolidated financial position

(Unit: Millions of yen; amounts are rounded to the nearest million yen.)

	As of June 30, 2025	As of December 31, 2025	Change
Total assets	1,511,026	1,617,531	106,505
Total liabilities	886,982	931,342	44,360
Total net assets	624,044	686,189	62,145

1. Assets, liabilities, and net assets

At the end of the six-month period ended December 31, 2025, total assets increased by ¥106.505 billion from the end of the previous fiscal year to ¥1,617.531 billion. This increase was mainly due to increases in cash and deposits of ¥41.134 billion, notes and accounts receivable - trade of ¥10.401 billion, accounts receivable - installment of ¥6.866 billion, merchandise and finished goods of ¥31.205 billion, deposits paid of ¥11.277 billion, and property, plant and equipment of ¥7.724 billion, partly offset by a decrease in investment securities of ¥11.837 billion.

Total liabilities increased by ¥44.360 billion from the end of the previous fiscal year to ¥931.342 billion. This increase was mainly due to an increase in notes and accounts payable – trade of ¥71.945 billion, partly offset by a decrease in borrowings of ¥28.515 billion.

Total net assets increased by ¥62.145 billion from the end of the previous fiscal year to ¥686.189 billion. This increase was mainly due to retained earnings of ¥48.204 billion, mainly reflecting the recording of profit attributable to owners of parent, partly offset by dividend payments, and an increase in non-controlling interests of ¥12.007 billion.

2. Cash flows

At the end of the six-month period ended December 31, 2025, cash and cash equivalents increased by ¥51.074 billion from the end of the previous fiscal year to ¥226.911 billion.

The cash flows from each activity and their underlying factors were as follows.

Cash flows from operating activities

Net cash provided by operating activities was ¥113.074 billion, an increase of ¥20.426 billion year-over-year. This increase was mainly due to profit before income taxes of ¥95.160 billion, depreciation of ¥25.640 billion, and an increase in trade payables of ¥68.387 billion. These positive factors were partly offset by an increase in inventories of ¥29.783 billion, an increase in accounts receivable - installment of ¥6.985 billion, an increase in trade receivables of ¥6.268 billion, and income taxes paid of ¥25.337 billion.

Cash flows from investing activities

Net cash used in investing activities was ¥30.437 billion, an increase of ¥8.111 billion year-over-year. This increase was mainly due to purchase of property, plant and equipment of ¥22.819 billion and the purchase of intangible assets of ¥7.642 billion.

Cash flows from financing activities

Net cash used in financing activities was ¥53.416 billion, an increase of ¥20.255 billion year-over-year. This increase was mainly due to repayments of long-term borrowings of ¥28.749 billion, dividends paid of ¥15.529 billion, and purchase of shares of subsidiaries not resulting in change in scope of consolidation of ¥8.130 billion.

(3) Explanation of consolidated earnings forecasts and other forward-looking statements

The Company has revised its full-year consolidated earnings forecasts taking into account the progress of business results for the six-month period under review, although the external environment is expected to remain challenging—requiring continued attention to the impact of persistent inflation, U.S. trade policy, and the deterioration of Japan–China relations on the economy.

For further details, please refer to the “Notice Regarding Revisions to Full-Year Consolidated Earnings Forecasts” disclosed today, February 12, 2026.

Notes on significant changes in shareholders' equity

Not applicable.

Significant changes in the scope of consolidation during the period under review

Kanemi Co., Ltd., an equity-method affiliate of the Company, repurchased a portion of its issued shares as treasury shares on August 20, 2025, resulting in the Company holding 40.3% of its voting rights. Accordingly, Kanemi Co., Ltd. was newly included in the scope of consolidation under the substantive control standard.

Kanemi Co., Ltd. does not qualify as a specified subsidiary.

Since the deemed acquisition date was set as September 30, 2025, the semi-annual consolidated statements of income and semi-annual consolidated statements of comprehensive income include Kanemi Co., Ltd.'s results of operations for the period on and after October 1, 2025.
